---

Projects

Weather App – *React, Typescript, Material UI, OpenWeatherMap API*
• Built a responsive weather app that fetches live data using a REST API
• Used React hooks and Material UI for state management and UI design

Portfolio Website – *HTML, CSS, JavaScript*
• Designed and built a personal website to showcase projects and skills
• Developed a fully responsive layout from scratch to strengthen core web fundamentals

Habit Hint (Promotional Website) – *HTML, CSS, JavaScript, Canvas, PowerPoint*
• Collaborated in a team of 6 to conceptualize and present a habit-tracking app focused on daily progress steps (e.g., for weight loss)
• Developed an interactive promotional website using HTML, CSS, JavaScript, and Canvas for visual elements
• Played a key role in coordinating design decisions and enhancing the pitch deck for presentation
